

YOUNG MOTHERS

The greatest crisis in a woman's life is when first she becomes a mother. All the physical strength of her nature is demanded at such times, and it is necessary that her system be thoroughly prepared for the event, in order that her health be preserved for future years. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

MOTHER'S FRIEND

Reasons Why It's Best

"BECKER'S BEST" is by actual analysis better than any eastern or other western brew because it is absolutely pure.

"BECKER'S BEST" is made from Utah White Club Brewing Barley, recognized by all brewers as the best in the world.

"BECKER'S BEST" is brewed in an absolutely clean and sanitary brewery.

More reasons why "BECKER'S BEST" is the BEST will follow. Watch BECKER'S ads.

WE PAY YOU TO SAVE.

THAT THE POWER OF MONEY

in making more money is the secret of getting rich is generally admitted.

The average so-called "savings deposit" is only \$400—yet this \$400 represents 6 per cent interest on nearly \$7,000 for a full year. As the most of these accounts were started with a deposit of one to ten dollars and gradually increased to their present size, doesn't it seem that YOU can do fully as well? Make up your mind to DO IT—then it's merely a case of application. Your earnings are as large, or larger, than those of the average depositor referred to, only you haven't been banking your money.

DEATHS AND FUNERALS

MRS. ADA. M. THORLIGHT.

The funeral services over the remains of Ada M. Thorlight, wife of Gus Thorlight, were held at 2:30 yesterday afternoon from the Lindquist funeral chapel, Bishop Henry G. Williams officiating and assisted by Councillor Parley T. Wright.

There was a large attendance at the services and the floral tributes were numerous and beautiful. Interment was made in the Ogden City cemetery.

The pallbearers were C. E. Faulkner, James LaVelle, B. F. Shepherd, R. R. Walker, J. F. Thomas and Edgar Lucas.

MRS. JANE RILEY.

Mrs. Jane Riley, wife of Heber Riley, died at the family residence, 2921 Wall avenue, last evening following an illness of three weeks. Her death was due to asthma. The deceased was 55 years of age and besides the husband, is survived by

five daughters and three sons. The arrangements for the funeral will be announced later.

APPLE HARVEST IN BEAR RIVER VALLEY

The apple harvest in the Bear River valley is now at its height, and the Pioneer Fruit company of this city is alone receiving 35 carloads weekly from this great fruit section. The shipments consist of various varieties, including Ben Davis, Gano, Jonathan, Winesap, Black Twig, Delaware Red, Winter Idared, Missouri Pippin and Shaddock.

This latter variety is something new and is still unknown in the east. It is said to be an apple of very fine quality and local fruit growers predict a great demand for it.

The bulk of the Pioneer company's shipments come from Tremonton, Garland, Evans, Corinne and Deweyville.

HOGS AND VEAL

We are paying for fat hogs as follows:
Hogs, from 260 lbs. to 300 lbs., per 100 lbs., \$9.25
Hogs from 160 to 200 lbs., per 100 lbs., 9c per lb.
Hogs, from 125 to 160 lbs., per 100 lbs., \$8.50

We receive hogs daily. Anybody who prefers dressed weight on hogs may bring them in on Tuesdays or Fridays between 7:30 and 10 a. m. We will then slaughter them while you wait, and pay \$12.50 per 100 lbs. dressed. At either of these days you may choose whether you want the live weight price or \$12.50 dressed.

We pay for fat veals 70 to 125 lbs. dressed weight 11 cents per lb., and receive them daily. You may bring them in either live or dressed.

Access to our plant is now convenient since the construction of the viaduct.

SAYS DUCK DISEASE IS SURELY CHOLERA

New York Expert's Diagnosis Is Accorded With That of Local Doctors.

Dr. Reid Blaid, veterinarian and pathologist of the New York Zoological society, a noted expert in such matters, has given his opinion relative to the disease affecting wild ducks in Utah. Dr. Blaid, in response to a communication from the New State Gun club, says:

The disease affecting the ducks and other water fowl in the vicinity of Salt Lake City, so well described by the Utah boys, is undoubtedly duck cholera. This is an infectious disease caused by a non-motile aerobic bacillus with rounded ends. It is about three times as long as broad, and stains readily with aniline dye. In morphology and culture it resembles the bacillus of fowl cholera, but fails to infect chickens, pigeons or rabbits.

"It infects ducks and many other water fowls by ingestion. In the infected birds the bacillus is always found in the blood, also in the intestinal mucous membrane and in the liver. Ducks inoculated with cultures of duck bacillus, hypodermically or intervenously, die in from twenty-four hours to three days with peritonitis and intense intestinal congestion.

"Fond water is a common source of infection, especially where there is been overcrowding. Summer is the period of greater prevalence, as at this time the best opportunity is afforded for the multiplication of the germs, and the drying of the ponds concentrates the infected material. The mortality in different epidemics varies in many cases. It has reached as high as 85 per cent.

"To prevent the spread of this disease remove the infected birds from the flock, keep the yards clean of droppings, and sprinkle the ground occasionally with a 3 per cent solution of sulphuric acid. If it is decided to treat the sick birds, they must be removed as soon as the illness is detected, and food and water must be clean and pure."

Dr. Blaid's conclusions are in conformity with the opinion of local doctors and sportsmen.

WOMAN CANDIDATE FOR SECRETARY OF STATE
Waterbury, Conn., Oct. 20.—Mrs. Elia Bloor today issued her letter of acceptance of the nomination for secretary of state on the Socialist ticket. She does so, she says, believing that she fulfills a duty as a member of the party and in recognition of her responsibility as an advocate of the cause of equal political rights for the women.

She points out that there are 50,000 self-supporting women working under the laws of the state which govern their work and in the making of which they have no voice. She says that one of the aims of the party is to overthrow wage slavery.

Newark, N. J., Oct. 20.—New Jersey is assured of a traditional Thanksgiving celebration this year, for reports from all parts of the state now that the cranberry crop will probably be the largest ever harvested. Last year's crop was a record but it is a much better one, as the berries are larger, better colored and of a finer flavor. The finest cranberries in the country come from New Jersey bogs.

FRAUD AND COLLUSION ARE CHARGED TO COAL DEAL

Victoria, B. C., Oct. 20.—Charges of conspiracy to defraud and manipulation of a claim filed in an action begun here yesterday by David Spencer, Jr., and Ephraim Hicson against Luther Swishard of New York, the Pacific Coast Coal Mines company, limited, of Victoria, and several prominent Victoria and Winnipeg businessmen.

Hicson transferred coal land, licenses and applications for licenses to the defendants in March, 1908, making an agreement by which he was to get 240,000 shares of the coal mines company and charges that the defendants are withholding the shares with intent to defraud him.

The accounts of the South Wellington Coal Mines, limited, have been falsified and manipulated. It is alleged to make it appear that John Arbuthnot, one of the defendants, who is president of this company, was entitled to \$225,000 for the Pacific Coast Coal Mines, limited, and by fraud and collusion has been given a charge on the company's assets, whereas, in fact the assets turned over to the South Wellington Coal Mines company were acquired with money belonging to the company and not to John Arbuthnot. It is charged that the Pacific Coast Coal Mines, limited, is insolvent as a result of the alleged manipulation.

OLD RESIDENT OF PROVO DIES AT ADVANCED AGE

Provo, Oct. 19.—Lester V. Chapin died Tuesday, at the home of Joseph Boren, from general debility. Deceased was born in New York, June 12, 1831, and had resided in Utah fourteen years. He was a veteran of the Civil war, having served in company K, Nebraska volunteers. One son, living in Newport, Conn., survives him.

Peter A. Hansen died at his home on First North street this morning, from Bright's disease. He was born in Skjoberg, Norway, January 1, 1847, and came to Utah seventeen years ago. He is survived by a wife and nine children.

Dorothy Buckley, the 13-month-old daughter of Mr. and Mrs. Arthur F. Buckley, died Tuesday, from summer complaint. Funeral services will be held at the residence, 453 North Academy avenue, Thursday, at 1 o'clock.

Lucius Davis of Salem was in Provo today to consult the county attorney about the alleged sale of liquor to minors by Boyack and Hughes, saloonmen at Salem. Mr. Davis is the father of Homer Davis, a young man who was recently fined for stealing liquor from the Boyack and Hughes saloon at Salem.

JAPAN IS NOW FINANCIALLY EMBARRASSED

Victoria, B. C., Oct. 20.—Japan, according to steam and adhesion, is abandoning the policy begun by Marquis Katsuma of setting aside \$25,000,000 yearly for reduction of the national debt. The proposed naval expansion policy following the acquisition of Korea and losses occasioned by floods, promise a heavy budget and there can be little provision next year for the sinking fund.

The Hoshi Shimbun says reports are current in Tokio that a cabinet crisis is imminent in consequence of a difference between Japan and Great Britain in regard to the revision of the tariff, the negotiations being in such a stage that Japan cannot settle the question without concessions. The Kikumun denies these reports and says concrete negotiations for revision of the treaties will be resumed in November.

No power has expressed a desire to contract a conventional tariff with Japan. The likelihood of changes or concessions from the present tariff is small.

COAL AT WYOMING MINE IS ADVANCED

Salt Lake, Oct. 20.—Effective today, October 20, the price of Union Pacific Coal company at the mines in Wyoming is advanced. It makes no difference to the Salt Lake consumer, as other companies control the local market, and for this reason the Union Pacific withdraw voluntarily from this market with the coming of each winter. This is due also to the fact that it has a better market in Idaho and Montana.

The new schedule for lump and nut at the Union Pacific mines is \$3 per ton for lump and nut, an advance of 50 cents and \$1.85 for run of mines, an advance of 25 cents.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

It has a damper top and a cool handle. Indicator always shows the amount of oil in the font. The filler-cap does not need to be removed; it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost. The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

When coal is sealed up tight in an oven, the heat of the oven or the retort commences to melt and soften the coal and the gases it contains are forced out of it, leaving the fixed carbon, resembling a hard spongy mass. After the gas and tar has been extracted from the coal by the heat in the oven, the door is opened and the hard spongy carbon or coke is withdrawn in a red-hot state. Water is poured over the coke until it is cooled, leaving what is commonly called gas house coke. This coke contains about 12,250 heat units per pound. Anthracite coal has 15,600, while soft coal, such as we use in Ogden contains about 15,000 thermal or heat units per pound of coal. Coke we are selling at \$4.50 per ton contains 95 per cent of the heat in bituminous coal, but is cheaper and cleaner. It does not choke up the stove pipe with soot and is much cleaner to handle. Don't try to burn the large lumps; break it up so it will lay closer in the furnace, then regulate the draft and you have a lasting fire of any heat that you may desire.

\$4.50 per ton in the yard and any drayman will deliver it for \$1.00 per ton.
